

MASTER OF SCIENCE IN LIFE SCIENCES (MSc LS)

Organigramm

A cooperation between BFH, FHNW, HES-SO, ZHAW

Steering Committee

Roland Stähli	BFH	Georg Lipps	FHNW	Olivier Naef	HES-SO	Daniel Baumann	ZHAW
---------------	-----	-------------	------	--------------	--------	----------------	------

Coordinating Office: Ellen Stadelmann

ZHAW

Programme Directors

Urs Scheidegger	BFH	Georg Lipps	FHNW	Roger Marti	HES-SO	Marie-Aude Boucabeille	ZHAW
-----------------	-----	-------------	------	-------------	--------	------------------------	------

Heads of Specialisations

Cluster Food	Cluster Bio/Pharma	Cluster Chemistry	Cluster Environment	Group BECS *
Food and Beverage Innovation (FBI) Sandra Burri	Pharmaceutical Biotechnology (PB) Regine Eibl	Chemistry for the Life Sciences (CLS) Jürgen Stohner	Natural Resource Management (NRM) Beat Oertli	Applied Computational Life Sciences (ACLS) Thomas Ott
Viticulture and Enology (VE) Roland Riesen	Applied Biosciences (AB) Urban Frey	Chemical Development and Production (CDP) Michal Dabros	Agricultural Sciences (AS) Urs Scheidegger	Biomedical Engineering (BE) David Hradetzky
Food, Nutrition and Health (FNH) Daniel Heine	Bioanalytics (BA) Georg Lipps	Chemistry (CH) Marianne Hürzeler	Forest Sciences (FS) Jean-Jacques Thormann	
	Pharmatechnology (PT) Martin Kuentz		Environmental Technologies (ET) Armin Zenker	

Module Coordinators

Core Competences (CC-Modules)

B1 Business Administration for Life Sciences – Lorenz Probst
 B2 Management and Leadership for Life Sciences – Daniel Spinnler
 B3 Innovation and Project Management – Robert Vorburger
 B4 Politics and Society – Ian Jennings
 D1 Handling and Visualising Data – Manuel Gil
 D2 Design and Analysis of Experiments – Christoph Kopp
 D3 Modelling and Exploration of Multivariate Data – Thomas Ott

Cluster-specific Modules (CS-Modules)

F1 Progresses in Food Processing – Michael Beyrer F2 Nutrition and Nutrition Related Chronic Diseases – Beatrice Baumer F3 Foodomics – Wolfram Brück F4 Sustainable Sourcing, Processing and Tracing of Food – Claudia Müller F5 Advanced Sensory Techniques – Pascale Deneulin	BP1 Compound Profiling in Pharmaceutical Drug Discovery – Laura Suter-Dick BP2 Drug Formulation and Delivery for Solid Dosage Forms – Georgio Imanidis BP 3 Design of Biopharmaceutical Production Facilities – Dieter Eibl BP4 Regulatory Affairs – Marc Pfeifer BP5 Physiology and Immunotherapies – Bruno Schnyder BP6 Tissue Engineering for Drug Discovery – Michael Raghunath	C1 Materials Science – Michael de Wild C2 Surface Characterisation – Michael de Wild C3 Polymers and Applications – Pierre Brodard C4 Green Chemistry – Jürgen Stohner C5 Chemistry and Energy – Jürgen Stohner
E1 Journal Club Environmental and Natural Resource Sciences – Lindsey Norgrove E2 Life Cycle Assessment – Jan Grenz E3 Sustainable Natural Resource Management – Dominic Blättler E4 Ecological Infrastructure in Landscapes – Claude Fischer E5 Biodiversity – Andreas Stampfli E6 Water Management for Households, Industry and Agriculture – Thomas Wintgens	BECS1 Modelling of Complex Systems – Sven Hirsch BECS2 Machine Learning and Pattern Recognition – Krzysztof Kryszczuk BECS3 Medical Imaging and Image Processing – Alex Ringenbach BECS4 Optimisation Methods – Erik Schkommodau	

* Biomedical Engineering and Computational Science
